

Founder Onboarding & Step-by-Step Guide

Transform raw startup hypotheses into mathematically scored, audience-validated products with AI guidance, interactive spotlight pages, and video pitch reels.

WORKFLOW CONTENTS

- | | |
|--|---|
| 01. Account Registration & Sign Up | 02. Signing In to Your Workspace |
| 03. Founder Command Dashboard | 04. Creating a Project Workspace |
| 05. Entering Startup Idea Details | 06. Copilot Validation Questions |
| 07. Phase I Reality Check & Score | 08. Spotlight Page Editor |
| 09. Public Spotlight & Live Signals | 10. Elevator Pitch Video Upload & Reels |
| 11. Audience Sprint Tiers (Gold/Silver/Bronze) | |

New founders start by registering on the platform at /signup. This creates your dedicated founder workspace and initializes your Supabase authentication profile.

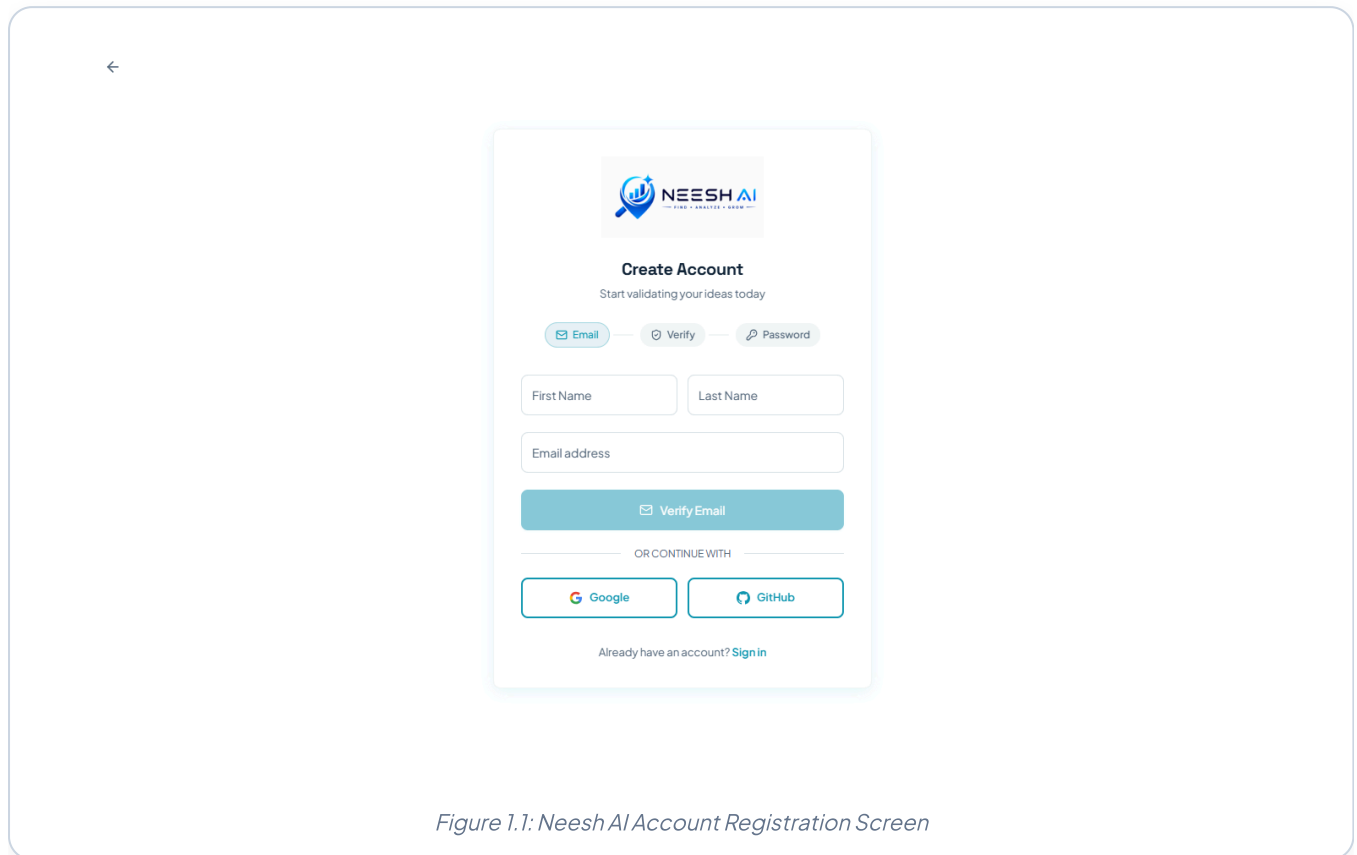

Figure 1.1: Neesh AI Account Registration Screen

FOUNDER INSTRUCTIONS

- **Email Registration:** Enter your First Name, Last Name, and Work/Personal Email Address.
- **Single Sign-On (SSO):** Click **Google** or **GitHub** for instant, passwordless sign-up.
- **Email Verification:** Verify your email link to activate your workspace and start building.

STEP 02 Signing In to Your Account

Existing founders log in directly via `/login`. Authentication tokens are securely managed with Supabase session storage.

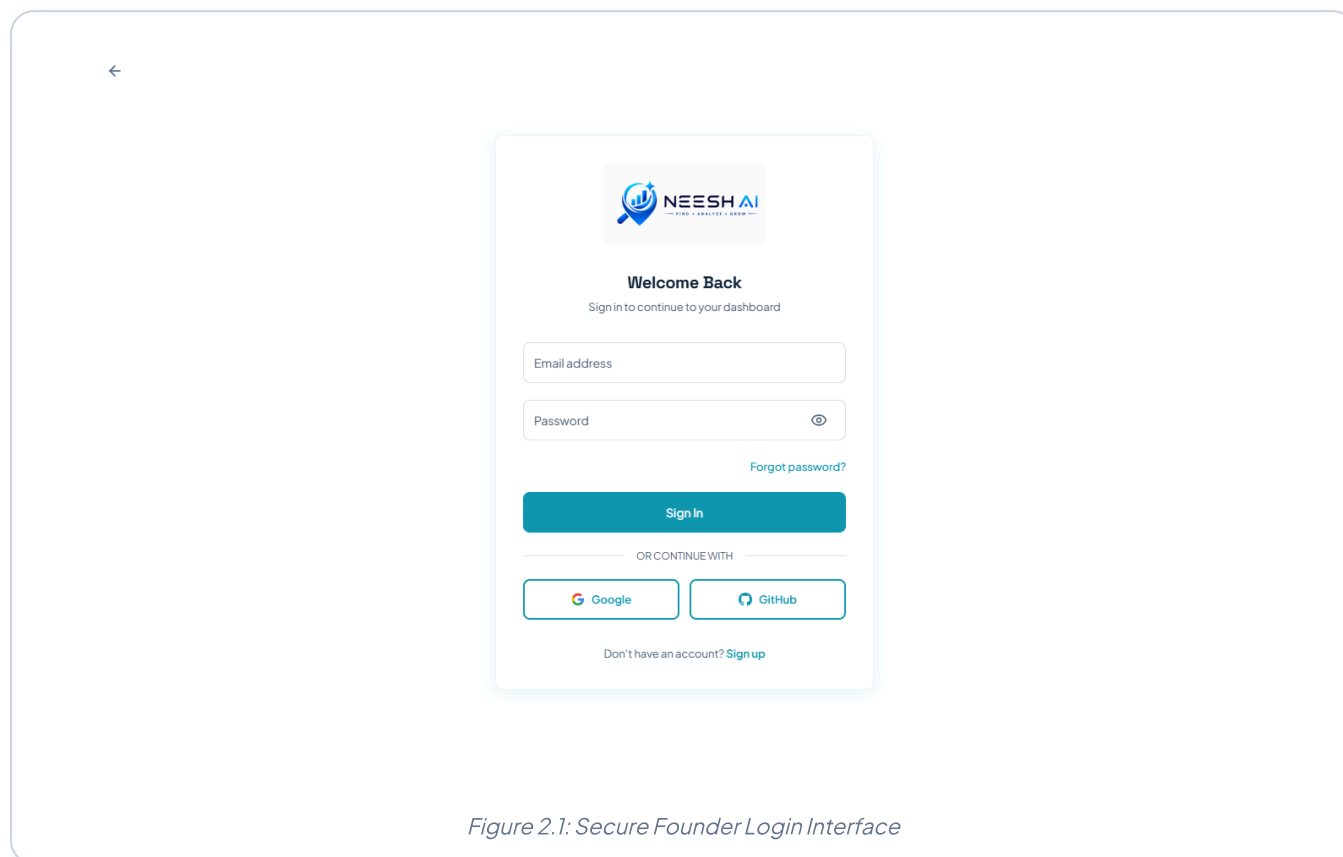

Figure 2.1: Secure Founder Login Interface

FOUNDER INSTRUCTIONS

- Enter your registered email and password, or authenticate with Google / GitHub.
- The system keeps you logged in across browser sessions so you can seamlessly update spotlights and monitor pitches.

STEP 03 The Founder Command Dashboard

The dashboard (/dashboard) is your startup control tower. It displays active validation sprints, countdown timers, status badges, and real-time audience views.

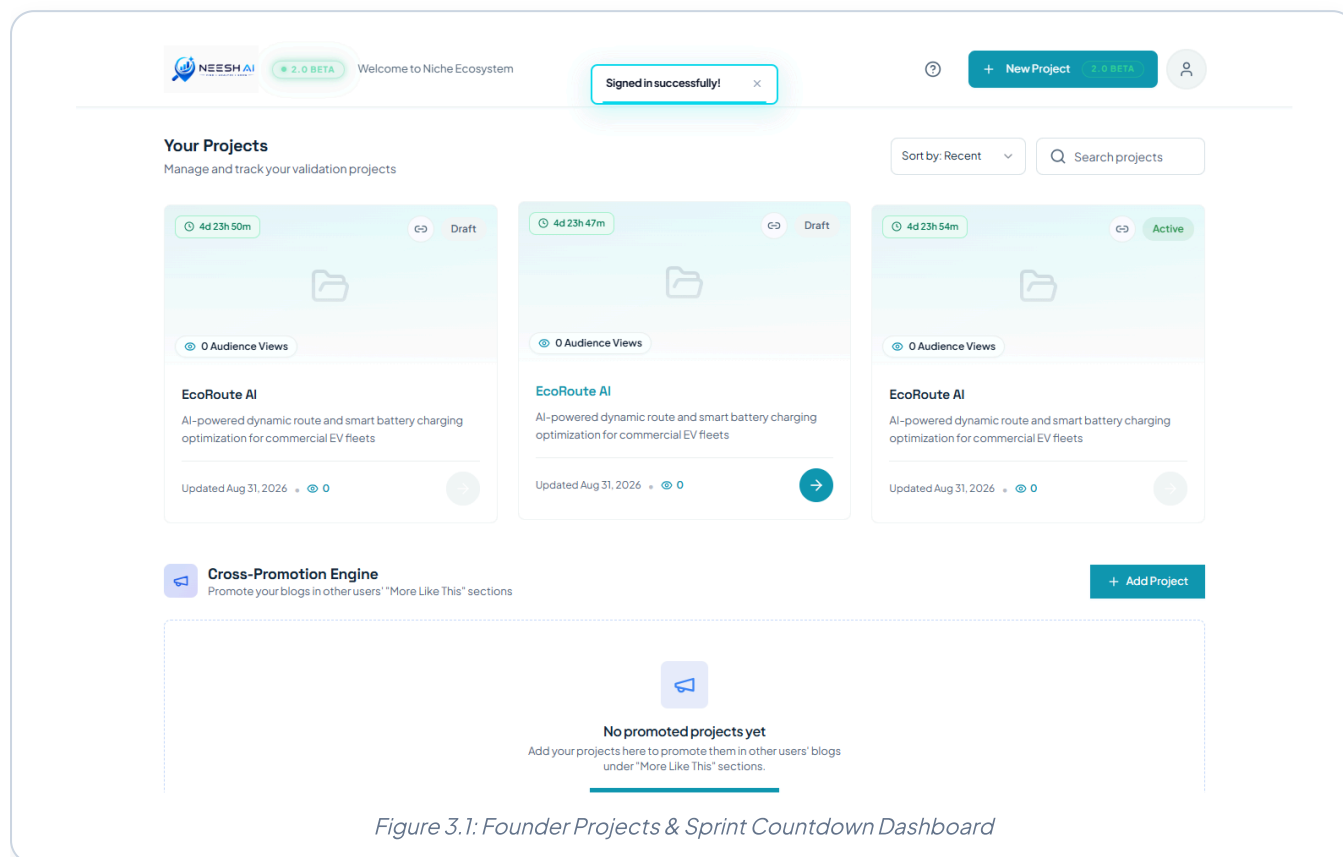

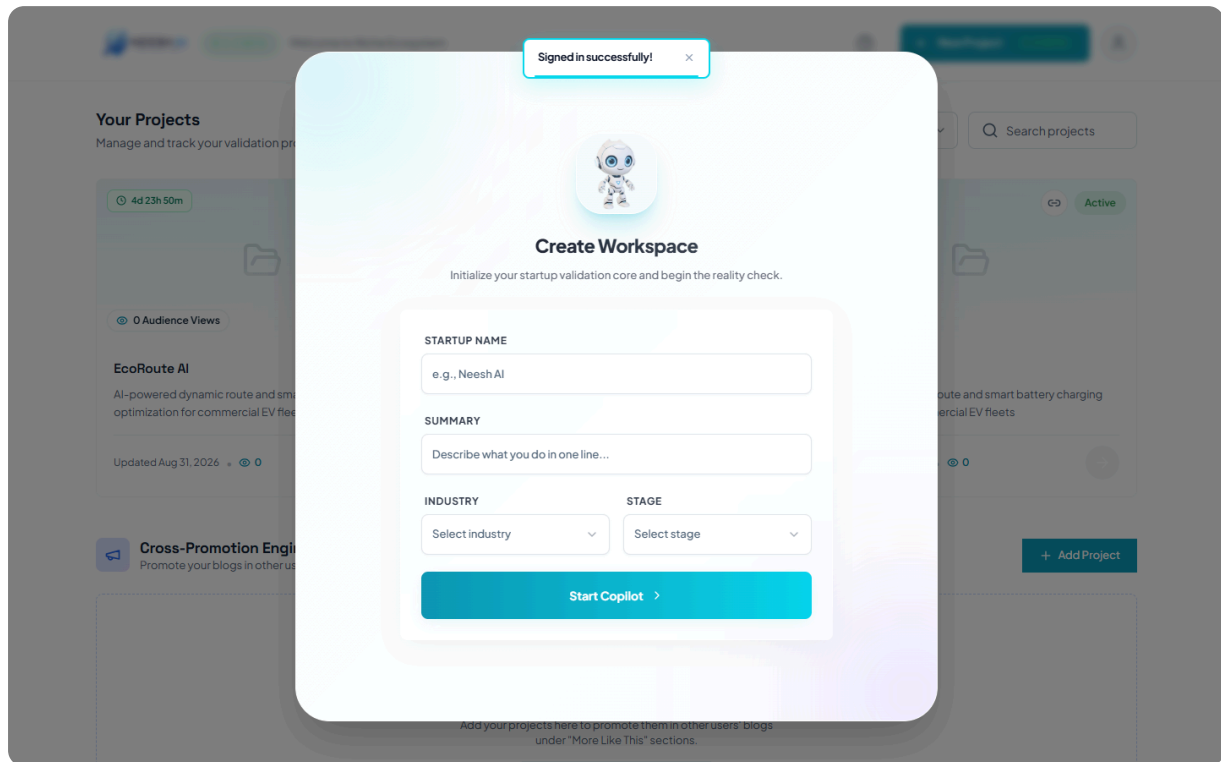

Figure 3.1: Founder Projects & Sprint Countdown Dashboard

DASHBOARD ELEMENTS

- **Project Cards:** View active sprint timers (e.g. 20-Hour Validation Sprint or 4d 23h), project titles, and status tags (Active, Draft, Locked).
- **Audience Views Counter:** Real-time counter of unique audience members who have opened your spotlight or pitch.
- **New Project CTA:** Click the top-right + **New Project** button to launch a new validation workspace.
- **Cross-Promotion Engine:** Live network to cross-promote your spotlight in other founders' "More Like This" sections.

STEP 04 Creating a New Project Workspace

Clicking **+ New Project** launches the interactive **Create Workspace Wizard**.

The screenshot shows a web application interface. In the background, there is a 'Your Projects' section with a list of projects including 'EcoRoute AI' and 'Cross-Promotion Engine'. Overlaid on this is a 'Create Workspace' wizard. At the top of the wizard, a notification bubble says 'Signed in successfully!'. Below this is a robot icon and the title 'Create Workspace' with the subtitle 'Initialize your startup validation core and begin the reality check.' The wizard contains a form with the following fields: 'STARTUP NAME' (text input with placeholder 'e.g., Neesh AI'), 'SUMMARY' (text input with placeholder 'Describe what you do in one line...'), 'INDUSTRY' (dropdown menu with 'Select industry'), and 'STAGE' (dropdown menu with 'Select stage'). At the bottom of the form is a blue button labeled 'Start Copilot >'. The background dashboard also features a search bar, a '4d 23h 50m' timer, and an 'Add Project' button.

STEP 05 Entering Startup Idea Details

Define the core parameters of your startup so Neesh AI can calibrate its validation reality check.

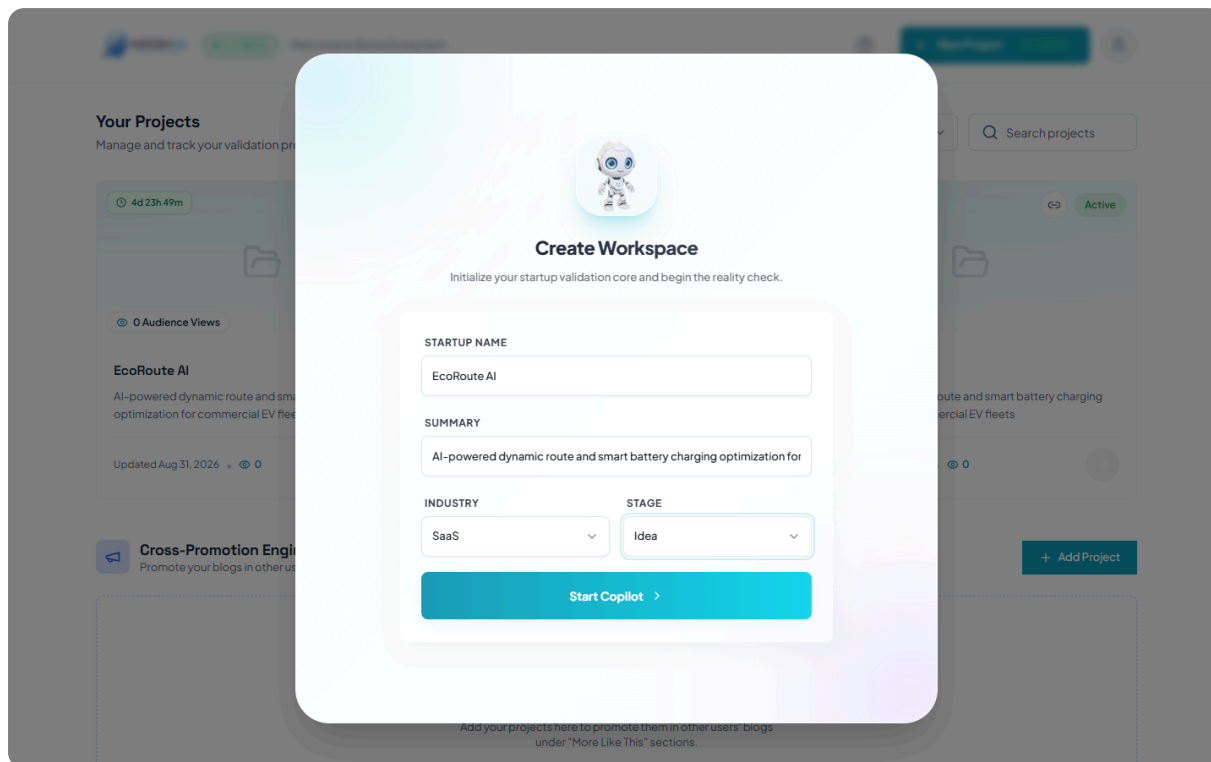

Figure 5.1: Startup Name, One-Line Summary, Industry & Stage Inputs

INPUT CHECKLIST

- **Startup Name:** The working brand or product name (e.g., EcoRoute AI).
- **One-Line Summary:** What you do and for whom in a single impactful sentence.
- **Industry:** Vertical classification (SaaS, CleanTech, E-Commerce, FinTech, etc.).
- **Stage:** Current venture stage (Idea, Prototype, Pre-Revenue, Early Traction).
- Click **Start Copilot >** to enter the AI interactive validation dialogue.

Neesh AI Navigator runs you through 5 modules of rigorous reality checks to eliminate bias and calculate value multipliers.

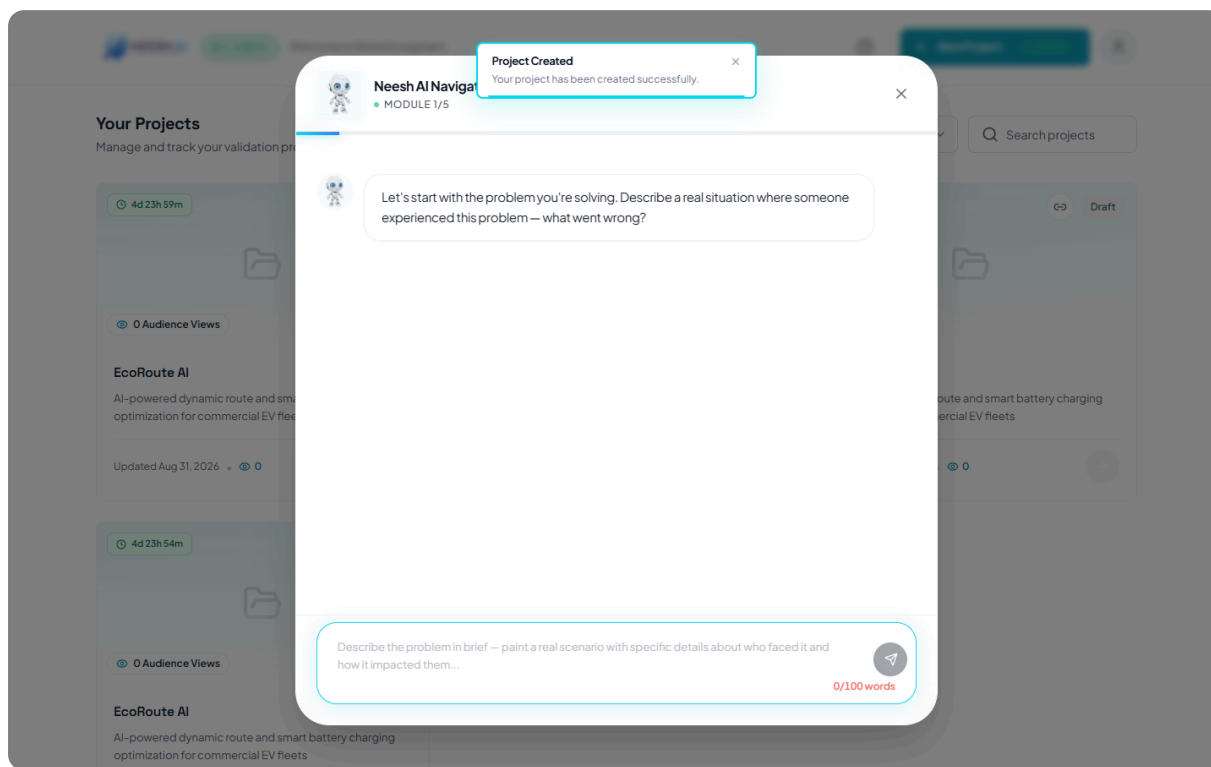

Figure 6.1: Neesh AI Navigator Interactive Question Dialogue

THE 5 CORE MODULES

- **Module 1 (Problem Reality):** Paint a real-world scenario where someone suffered from this problem and what went wrong.
- **Module 2 (Customer Persona & Budget):** Specific job title, willingness to pay, and cost of their current workaround.
- **Module 3 (Value Multiplier):** Measurable metrics why your approach is 10× better than existing alternatives.
- **Module 4 (Defensibility):** What stops a well-funded competitor from cloning your product overnight?
- **Module 5 (10-Crore / Scale Math):** Realistic transaction volumes, price points, and customer acquisition channels.

STEP 07 Phase 1 Validation Reality Check & Score

Your answers are synthesized into a holistic market-readiness score with actionable dimensional recommendations.

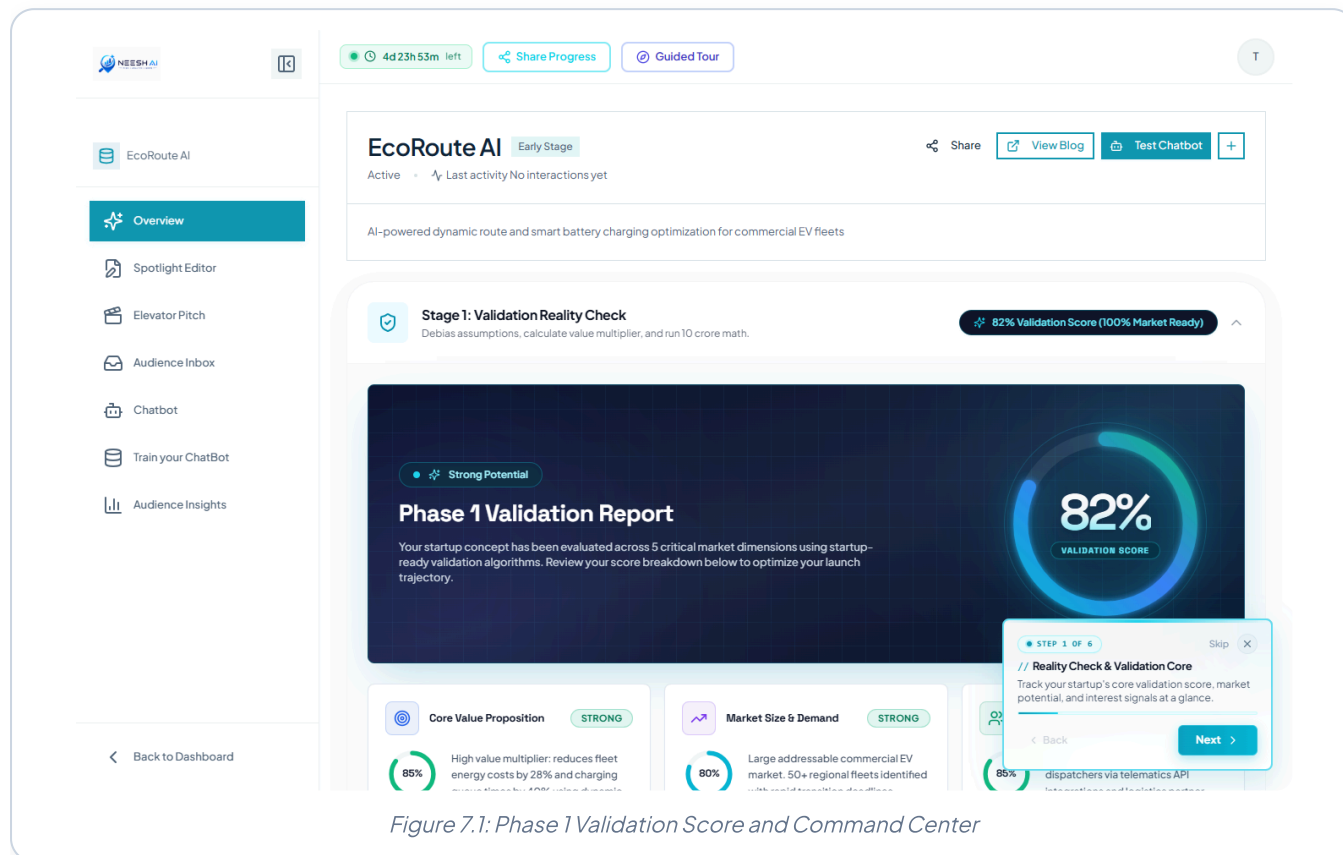

Figure 7.1: Phase 1 Validation Score and Command Center

WORKSPACE HUB FEATURES

- **Aggregate Score:** Market-readiness gauge (e.g. 82% Validation Score).
- **Key Dimension Gauges:** Core Value Proposition, Market Size & Demand, Defensibility, and Go-to-Market Readiness.
- **Sidebar Navigation:** Easy access to Spotlight Editor, Elevator Pitch, Audience Inbox, Chatbot, and Audience Insights.

The Spotlight Editor (tab=spotlight) lets you design a high-converting public landing page to capture customer intent.

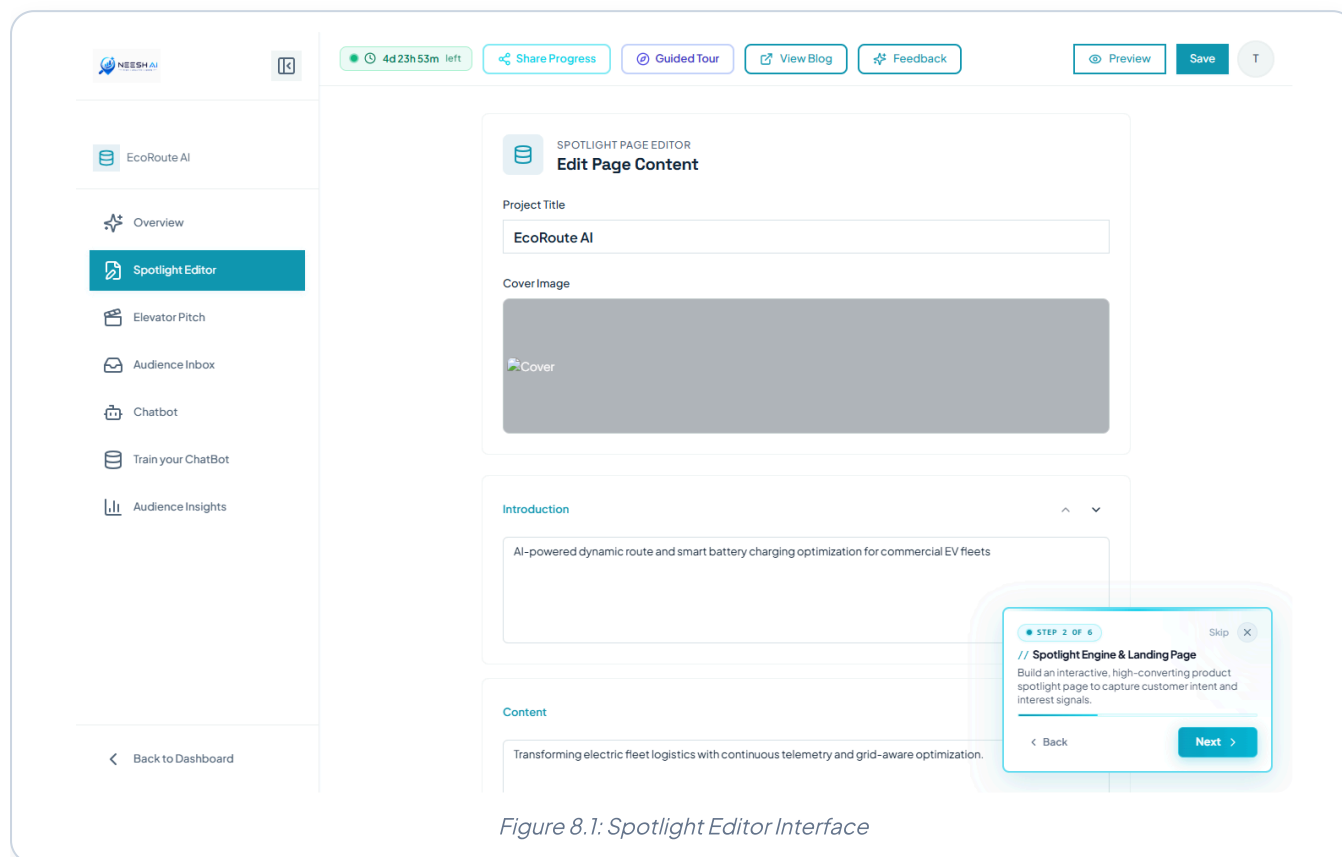

Figure 8.1: Spotlight Editor Interface

CUSTOMIZATION CONTROLS

- **Cover Visual:** Upload your hero graphic or choose an AI-suggested cover.
- **Introduction & Headline:** Craft your pitch to immediately hook incoming visitors.
- **Interactive Interest Button:** Configure glowing action triggers (e.g. "I'm Interested", "Request Early Access").
- **Lead Capture & Feedback:** Set custom survey questions for prospective buyers.
- **Preview & Publish:** Click **Preview** or **Save** to take your spotlight live.

When you share your spotlight link (/p/:slug), visitors arrive at your live presentation to engage, submit interest, and chat.

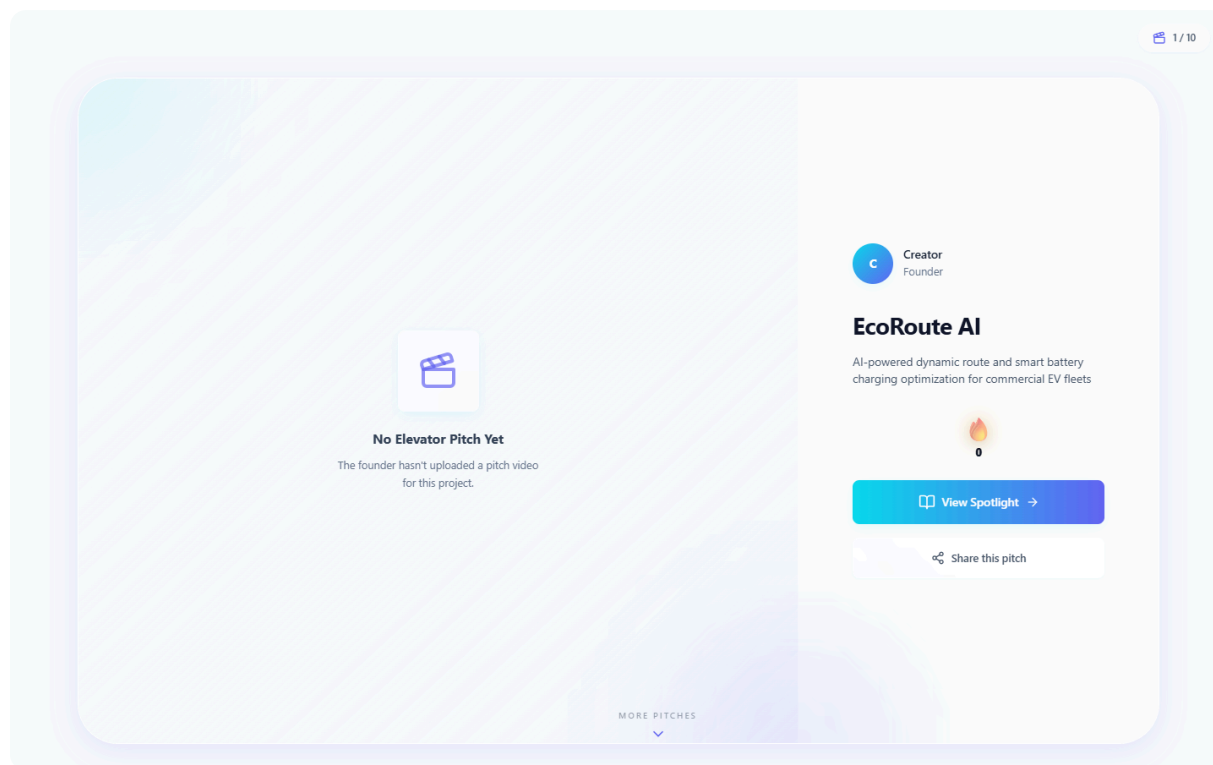

Figure 9.1: Live Visitor Perspective on Public Spotlight

AUDIENCE INTERACTION POINTS

- **Deep-Dive Problem & Solution:** Visitors read your verified value proposition.
- **Glowing Intent Button:** One click captures visitor intent and records buyer signals.
- **AI Chatbot Assistant:** Visitors can chat with your trained AI bot 24/7 to get answers about your product.

Short-form video reels generate 5x higher engagement. Upload your 60-second pitch in the **Elevator Pitch** tab and broadcast it to the community.

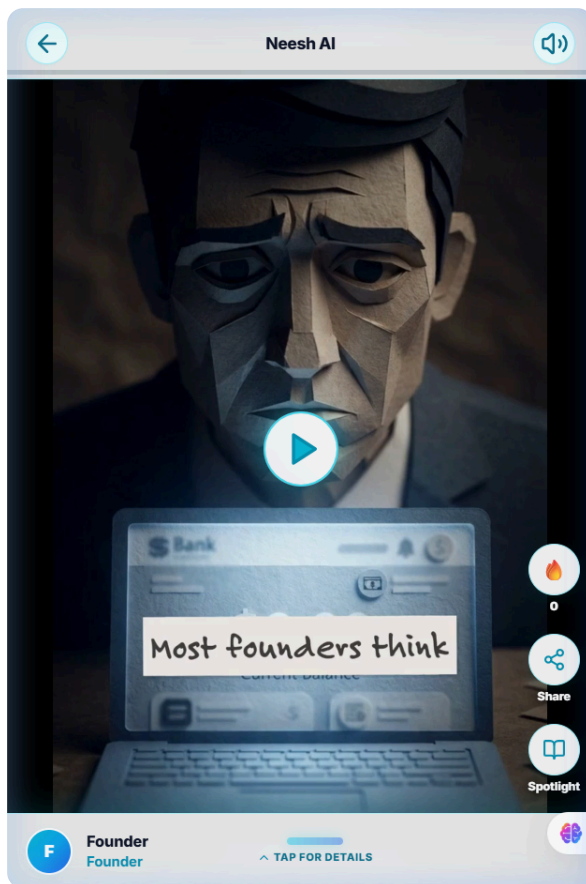

Figure 10.1: Elevator Pitch Reel Featured in the Community Feed

UPLOAD & PROMOTION STEPS

- **Video Upload:** Upload an .mp4, .webm, or .mov video file (up to 50MB, <60s recommended).
- **Instant Preview:** Review video playback and auto-detected duration directly inside the workspace.
- **Save Pitch:** Securely uploads your video to cloud storage and attaches it to your project.
- **Push to Cross-Promotional Engine ⚡** : Click **Push to Engine** to broadcast your pitch directly into the **Pitches Feed** (/pitches), where investors and adopters discover it!

As traffic flows into your Spotlight and Pitch Reel, Neesh AI tracks conversion metrics and qualifies buyers into Gold, Silver, and Bronze tiers.

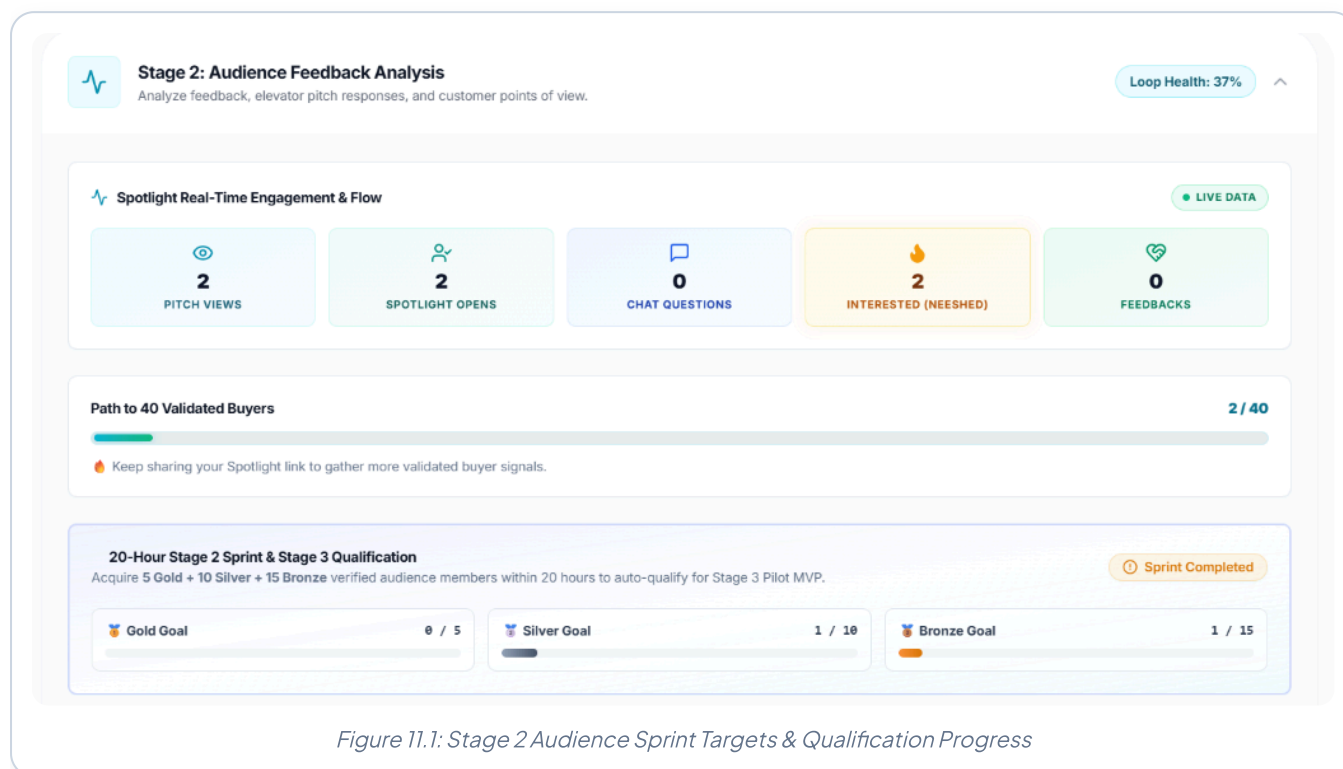

Figure 11.1: Stage 2 Audience Sprint Targets & Qualification Progress

VALIDATION TIERS EXPLAINED

- **Bronze Tier (Early Adopters):** Visitors who clicked the interest button and signed up for updates.
- **Silver Tier (Qualified Feedback):** Visitors who answered in-depth feedback questions or tested features.
- **Gold Tier (High-Intent Buyers):** Prospects who committed pre-orders, confirmed pilot budgets, or booked sales calls.
- **Sprint Auto-Advance:** Achieve **5 Gold + 10 Silver + 15 Bronze** targets within your 20-hour sprint to auto-qualify for Stage 3 Pilot MVP status!
